District turned down for grant

Hoopeston Area schools will not receive a state grant to further update computers.

The district had applied for a \$90,000 grant but learned recently that they did not receive funding, said Superintendent Don Dean at Thursday's school board meeting.

"Right now, we haven't found anyone in the area who's gotten one," Dean said, adding he has heard reports that the state will hold a second round of applications in October.

Despite not receiving state funding, the district will go ahead with plans to open computer labs at Honeywell and Maple, along with a second middle school lab, Dean said.

Work on the labs will be done next summer.

In other action, the board:

learned new band and flag corps uniforms have been purchased, with money in the Besseliu trust.

was told 464 work project of nearly 600 requested were completed by summer maintenance workers.

discussed the district's television channel 41 on Hoopeston Cable. "We've had a lot of positive responses to it," Dean said adding the schedule for shows taped will depend on student schedules since media class students will do the taping.
